

EDUCATION

- **University of California, Berkeley** Berkeley, USA
PhD Student, Department of Electrical Engineering and Computer Science *Aug 2021 - Present*
- **University of Toronto** Toronto, Canada
Masters in Computer Science *Jan 2019 – May 2020*
- **University of Waterloo** Waterloo, Canada
Bachelors of Science, Honours Science, Bioinformatics Option *Sept 2014 – May 2018*

RESEARCH EXPERIENCE

- **Google Brain** Mountain View, USA
Student Researcher *May 2022 – Present*
 - **Protein sequence modelling:** Understanding protein functions with machine learning.
- **UC Berkeley/Berkeley AI Research** Berkeley, USA
PhD Student *July 2021 – Present*
 - **Biological sequence design:** Developing methods for exploring protein fitness landscapes for ML-guided protein design.
- **Insitro** South San Francisco, USA
Machine Learning Engineer III *July 2020 – July 2021*
 - **Image profiling:** Engineered representations of microscopy image phenotypes for drug discovery.
 - **Molecular design:** Supported ML-guided design of molecules through representation learning and chemoinformatics analyses.
- **University of Toronto/Vector Institute** Toronto, Canada
Masters Student *Jan 2019 – May 2020*
 - **Representation learning for proteins:** Developed self-supervised representations for proteins using contrastive mutual information maximization (*MLCB 2020, PLOS Computational Biology*).
 - **Generalizability to distribution shifts:** Benchmarked self-supervised computer vision methods for microscopy images to address generalization challenges to natural covariate shifts (*NeurIPS 2019*).
 - **ML for Health, algorithmic fairness:** Quantitative and qualitative evaluation of bias in contextual word embeddings of clinical notes (*Spotlight, ACM CHIL 2020*).
- **Stanford University** Stanford, USA
Visiting Student Researcher, Kundaje Lab *Sept 2019 – Jan 2020*
 - **Regulatory genomics:** Using domain adaptation methods to enable transcription factor binding prediction when evaluating on holdout cell lines.
- **Harvard Medical School/Boston Children's Hospital** Boston, USA
Intern, Research Computing *Jun 2018 – Jan 2019*
 - **Exome variant prioritization:** Understanding genotype-phenotype relationships in childhood epilepsy. Interpreted important model features to seek novel disease-associated variants from whole exome (WES) data.
- **University of Waterloo** Waterloo, Canada
Undergraduate Thesis Student *Sept 2017 – May 2018*
 - **Chromatin accessibility:** Prediction of accessible chromatin regions for femur growth regulation. Reconstructed convolutional filters as a position-weighted matrix (PWM) with statistical matches in JASPAR, a database of known motifs.
- **École polytechnique fédérale de Lausanne** Lausanne, Switzerland
Research Intern *Jun 2017 - Sept 2017*
 - **Molecular dynamics:** Used molecular dynamics (MD) and GROMACS to simulate enzyme-membrane interaction mechanisms of NDM-1, an enzyme which confers antibiotic resistance.

PREPRINTS AND PUBLICATIONS

AWARDS

- **D. E. Shaw Graduate & Postdoc Women's Fellowship**: Fellowship program for graduate & postdoc women in computational drug discovery.
- **Paula Hawthorn Fellowship**: UC Berkeley Computing, Data Science and Society departmental fellowship.
- **NSERC Postgraduate Scholarships – Doctoral program (PGS D) Award**: Federal doctoral scholarship tenurable abroad, selected in the Committee for Computing Sciences.
- **NSERC Canada Graduate Scholarships – Doctoral (CGS D) Award**: Federal doctoral scholarship tenurable only at a Canadian institution, selected in the Committee for Computing Sciences [DECLINED].
- **Alexander Graham Bell Canada Graduate Scholarships – Master's (CGS M) Award**: Federal research scholarship for high-calibre Master's research students.
- **NSERC Michael Smith Foreign Supplement**: Supports high-calibre Canadian graduate students in pursuing research abroad.
- **EPFL Scholarship of Excellence in Research**: Sponsors students for research internship at EPFL.
- **President's Scholarship of Distinction, Arebi Family Science Scholarship**: University of Waterloo.
- **Royal Conservatory of Music (RCM)**: ARCT Performer's Diploma in Piano.

SERVICE AND ACTIVITIES

- **Reviewing**: ICLR Workshop on AI4Science (2022); Machine Learning for Health (2020, 2021); Machine Learning for Computational Biology (2021); NeurIPS Workshop on AI for Science (2021); NeurIPS Workshop on Distribution Shifts (2021).
- **Research to the People, Core Team (formerly SVAI)**: Non-profit connecting patients of rare genomic diseases to the medical/AI research community and industry partners through collaborative research initiatives.
- **Tosamaganga Hospital**: Supported operations at a rural Tanzanian hospital.
- **Residence Don**: Organized events, responded to crises, and established rapport with diverse students. Leader for the Velocity Residence, a spin-off program of the Velocity start-up incubator.
